Promoting Child Rights and Wellbeing

## WHO WE ARE

Educo is a global development and humanitarian NGO headquartered in Barcelona, Spain, with a 30-year rich history of working in 14 countries. Our mission revolves around collaborating with children and their environment to foster a just and equitable society that safeguards their rights and well-being. Our vision is A world where all girls and boys have access to educational environments and fully enjoy their rights and a dignified life. We strive to create opportunities for children, youth, families, and communities across the globe.

Promoting safe, equitable, and quality education has always been at the core of Educo's mission.

Early Childhood Care and Education (ECCE) holds a paramount position in Educo's comprehensive education programme, spanning the crucial years from 3 to 5.

By extending our support, we aim to accelerate educational programmes, ensuring every child's right to receive a quality education and enabling a smooth transition to the next educational level.

By integrating Disaster Risk Reduction practices into the education system,  
we are fostering a culture of preparedness and resilience.

Educo works towards the full enjoyment of the rights  
to protection from all forms of violence against children.

We have worked persistently to establish Community-Based Child Protection Systems (CBCPS) which play a crucial role in raising awareness and preventing various forms of child maltreatment, including child marriage, physical abuse, child labour, and corporal punishment and so on.

We are dedicated to addressing the urgent needs of children and adolescents in crises and disasters. Our approach focuses on strengthening Education in Emergency (EiE), ensuring protection and well-being, and empowering them to combat violence and discrimination.

We aim to enable Children, Adolescents and Youth from diverse regions to exercise their right to participation and facilitates life skills training to equip them with social and interpersonal skills to make informed decisions.

We provide technical and vocational training to mitigate the gap between demand and supply by providing marketable skills that can be applied immediately in the workplace.

Recognising the transformative power of sports, we have motivated Adolescents and Youth (A&Y) through our Sports for Development (S4D) programme, promoting self-improvement and personal growth.

We are committed to challenging harmful social norms that perpetuate gender inequality and condone violence as a form of discipline.

We implement advocacy initiatives on both local and national scales, utilising social mobilisation and media campaigns to uphold children's rights in various domains.
